

HPD UNIQUE IDENTIFIER: 31721

CLASSIFICATION: 12 21 00 Window Blinds

PRODUCT DESCRIPTION: Verosol OmniaScreen 293 is a metallized screen fabric for roller blinds / roller shades. Combines a low openness factor with an excellent view through. Protects against glare. Provides heat gain reduction in window systems thanks to the reflectance of the aluminium coating. Provides heat insulation thanks to the Low-Emmisivity property of the coating. Flame retardant. Made out of phthalate-free PVC-coated polyester yarns.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

INVENTORY AND SCREENING NOTES:

Antimicrobial Pesticides Reporting: This product contains substance(s) that are intentionally added above the [Product - 100 ppm] threshold to act as antimicrobials. See Substance Notes and General Notes for more information.

Substance(s) are intentionally added below the selected threshold in this role and are reported in Section 2 of this HPD.

Blind / Shading fabric based on a woven structure of PVC-coated polyester fibers with a reflective aluminum coating. Verosol OmniaScreen 293 is compliant to: REACH, Oeko-tex 100 class IV, Greenguard Gold, ISO14001 and RoHS2. Phthalate-free, formaldehyde-free.

VOLATILE ORGANIC COMPOUND (VOC) CONTENT

VOC Content data is not applicable for this product category.

CERTIFICATIONS AND COMPLIANCE See Section 3 for additional listings.

VOC emissions: UL/GreenGuard Gold Certified

Multi-attribute: OEKO-TEX Standard 100

Multi-attribute: REACH European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals

Management: ISO 14001:2004 Environmental management systems

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-3-standard

VEROSOL OMNIASCREEN 293

PRODUCT THRESHOLD: 100 ppm

RESIDUALS AND IMPURITIES EVALUATION COMPLETED: No

RESIDUALS AND IMPURITIES NOTES: Residuals common for polyester yarns and plasticized PVC are not considered.

OTHER PRODUCT NOTES: The plasticizer in this product is phthalate free.

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

VEROSOL OMNIASCREEN 293 MANUFACTURER (OR GENERIC): **Kvadrat Shade**

HPD URL: <https://www.kvadrat.dk/en/kvadrat-shade>
ACCESSORY TYPE: Installation Accessory
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: Maintenance: Dust can be removed with a soft feather duster or by vacuum-cleaning with a soft brush at lowest position. When intensive cleaning is required, the colored side can be cleaned with a wet cloth.

Verosol OmniaScreen 293 distinguishes itself from competitor products with:

- very good solar reflectance
- phthalate-free
- clear view-through and robust look and feel
- high energy saving potential and visual comfort.
- meets the highest fire safety standards

MANUFACTURER INFORMATION

MANUFACTURER: Verosol
ADDRESS: Kieft 18
 Eibergen Gelderland 7151HZ, Netherlands

- Third Party Verified** Verification by independent certifier approved by HPDC
- Preparer** Third party preparer, if not self-prepared by manufacturer
- Applicable facilities** Manufacturing sites to which testing applies

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- *a method for the assessment of exposure or risk associated with product handling or use,*
- *a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.*

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
